Chicago, Sept. 8. — Support of Governor Cox's charges that \$400,000 had been set as the Republican campaign fund quota of Cleveland and \$25,000 as that of Atlanta, came from Republican witnesses today at the senate investigation of campaign funds and expenditures. In addition, there was a statement by Harry M. Blair, assistant to the treasurer of the Republican national committee, that he had approved "form 101," a statement setting forth a campaign plan which called for subscriptions of \$5,000 to \$10,000 each.

## CLEVELAND OFFICIAL TESTIFIES

Testimony on the Cleveland quota of \$400,000 was given by Dudley S. Blossom, a city official and one of the leaders in the drive for funds here. He said this figure was given him by W. A. Woodford, chairman of the ways and means committee for Cleveland, but that it also was discussed with the national ways and means committee representatives, and "became common knowledge among workers for the fund." He said \$74,000 had been pledged to the fund and that the work was continuing.

Pennant Races in Both National  
and American Circuits Tighten  
Up Another Notch

New York, Sept. 8. — The pennant races in the National and American leagues tightened up another notch as the result of today's games.

In the senior circuit the Cincinnati Reds, who are setting the pace, were idle, while Brooklyn, in second place, defeated Philadelphia, and New York, in third place, won two games from Boston. Brooklyn's victory put them tie with Cincinnati so far as games are concerned, but the Reds have a lead of four percentage points. The Giants' double victory over the Braves enabled New York to gain four points on Brooklyn and seven on Cincinnati. In games, the Giants are only one and one-half behind Cincinnati and Brooklyn.

Cleveland and New York were not scheduled today in the American league, while Chicago defeated St. Louis and thereby gained three points on the first and second teams. As a result, there are only 11 points between Cleveland in first place and Chicago in third place. The Indians have a half game lead over the Yankees and the latter have the same advantage over the White Sox. The final interseasonal series of the season opens in both leagues tomorrow with the western clubs of the National league playing in the east and the eastern clubs of the American league playing in the west.

## WEIDMAN'S CUBS DISBAND.

Out-of-Town Players Leave for Homes and College Studies.

The baseball season ended, Weidman's Cubs have broken up for the winter and all the players are now at their respective homes endeavoring to get used to the hum-drum existence of the ordinary mortal after an interesting summer at Neahwa park. Most of the out-of-town men left Monday, when it was decided to call off the double header that day on account of wet grounds.

Eddie Reiter, heavy hitter and third baseman of the Cubs, left for Boston, where he will enter college for the winter. Gene Duval, second baseman; Andy Marone, first baseman; Edward Dempsey, short stop, and Kinner, pitcher, all are in Schenectady, their home town, and where nearly all of them are employed in the General Electric plant. Benny Tryon, outfielder, is enjoying a brief vacation at Three Rivers before returning to his studies at the University of Vermont.

All of the other men on the team expect to spend the winter in Oneonta and vicinity. They are D. B. Brown, Jimmy Boylan, Bert Bowers, Miles Dales and Paul Gardner, of this city; Manager Fred Weeks of Hobart, and Pitcher Davis of East Worcester. Local fans will look forward to the reappearance of this outfit next summer, when Weidman hopes to have a stronger team than ever.

## PESSIMISTIC AIR PERVADES MARKET

## Failure to Respond to Favorable Developments Prompts Selling for Short Account

New York, Sept. 8.—The stock market was without a definite trend during the better part of today's professional operations, although losses predominated among most of the active issues at the heavy close.

Exceptions to this tendency were furnished by several of the oils, steels and investment rails, also specialties of the class represented by sugars, but last week's favorites in the transportation and industrial group were reactionary.

Sentiment among traders inclined toward further pessimism, the market's failure to respond to various favorable developments prompting a resumption of selling for the short account, especially in low priced rails, equipments and associated issues.

Money conditions continued to show greater ease, to the extent that more funds were available for time loans and call loans ruled at seven per cent against yesterday's maximum of eight per cent. The drain on local resources also halted and banks at western and southern reserve points were reported to be lending more liberally on commercial paper.

The market for foreign remittances again ignored further revivals of gold imports, both London and Paris standing still, while the Italian rate broke violently, probably on account of serious industrial disturbances in that country.

Domestic industrial conditions were summarized by the Iron Age in the statement that a "waiting attitude" prevailed in the steel trade, on theory that lower prices will prevail for fabricated products in the coming year.

Most bond issues, domestic and international, followed the course of stocks, easier tendencies being shown by Liberty and popular railway bonds. Old U. S. bonds were unchanged on call.

Schuyler Lake, Sept. 8. — Miss Frances Patton, daughter of Prof. Carlton Patton of Brooklyn, who, with his family, has been spending the summer at Camp Happyland, at Camp City, on the west shore of Canadago lake and about one mile from this place, swam from the camp across up to Canadago park Sunday in two hours and three minutes. They did not swim for speed but for endurance in long distance swimming.

## BLANCHE SWEET in SIMPLE SOULS

From the novel by John Hastings Turner

There has never been a picture so unique as "Simple Souls." There has never been a Blanche Sweet quite so beautiful and charming and scintillating. There has never been a more artistic Jesse D. Hampton production.

A faithful adaptation of a novel by John Hastings Turner, "Simple Souls" is a romance of sweet simplicity wound around two of the quaintest and most lovable, real human beings we've met in a long while. It bubbles over with youth and romance; with laughter, sunshine and ideals. Its humor and drama throb alike with fervor and feeling.

THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 31/2-inch tires, front and rear, for every day in the year, has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

## THE AMERICAN PRUNE.

The American prune, almost more or less unpopular, at least in other years, has come into its own abroad and has gained the permanent friendship of Europeans during its war experiences. The quantity exported in the year 1919-20, so the Foreign Trade Record says, was double the average of the war period, and the value was two and a half times as much as in 1919, and five times as much as in 1918.

The prune is comparatively a stranger on our shores, its introduction being only half a century ago; and until recent years France, Italy and the Danubian countries have been the chief areas of production. Our Pacific coast territory, however, quickly demonstrated the adaptability of soil and climate, and even before the war it had demonstrated the superiority of its product. In 1900 the three Pacific states produced 100,000,000 pounds, which in 1919 had increased to three and a half times as many, and the value thereof produced was \$40,000,000. Not only have imports of prunes disappeared, but the United States last year shipped 14,000,000 pounds abroad, mostly to Europe.

The growth in the exportation of prunes illustrates the development of new industries in the United States. Raisins exported in 1920 showed a total value of nearly \$13,000,000, against \$5,000,000 one year earlier and \$5,000,000 two years earlier. Oranges exported in 1920 amounted to 7 1/2 million dollars against 4 1/2 millions in 1918; lemons 1 1/2 million dollars against one-half million two years earlier, and the total value of all fruits and nuts exported in the fiscal year 1920 was \$118,000,000 against \$71,000,000 in 1919, and \$34,000,000 in 1918.

## PAYING ITS DEBT.

The announcement which has just been made regarding the payment of the Anglo-French loan, or at least the French part of it, which is due on October 15, sets at rest all rumors previously afloat as to likelihood that the loan will not be paid. The French government now announces that its half of the loan, which is \$250,000,000, will be met by direct payment of \$150,000,000 in gold through shipments now coming forward, and the balance will be met by a new issue of \$100,000,000 in bonds which there will be no difficulty in floating.

The French are a provident people and are inclined to pay their debts instead of by means of a long-term bond issue, shifting the burden on posterity. Instance of this was the original 1872 war indemnity extorted by Germany. The latter country believed that it never could be raised and consequently relied upon a default as reason for further encroachments of French territory; but the thrifty French peasant dug down into his stocking hoard and paid it all at one payment and promptly on time — greatly to German chagrin, and the openly expressed opinion that twice as much should have been asked.

Of all the countries of Europe, France, the land which suffered most, appears to be making the quickest recovery.

## FOR MILITARY SERVICE.

Boys Between Ages of Sixteen and Nineteen Must Enroll on Sept. 23.

In accordance with the provisions of the State Military law, military training of the boys of New York is compulsory, and in accordance with a proclamation issued by Governor Smith, every boy in the state between the ages of 16 and 19 years must enroll for this purpose on Thursday, Sept. 23. This enrollment is not permissive but compulsory, and it applies alike to those in attendance at school and to those who are employed. To secure this enrollment every public schoolhouse in the state will be open on the above date from 9 a. m. to 3 p. m., daylight saving time.

Complete plans for the conduct of the enrollment are being prepared by the State Military Training commission, consisting of Major General O'Ryan, commanding the National Guard, Dr. John H. Finley, state commissioner of education, and Dr. George J. Fisher, deputy chief scout executive of the Boy Scouts of America. This enrollment is in charge of the commission, and will enable that body to place in the hands of every boy subject to the law a certificate which the boy must have before he can attend school or be employed.

The proclamation issued by the Governor definitely states that the provisions of the law are applicable to all boys who are now 16 years of age or will become so prior to October 1, 1920, and to those who are 16 years of age or over and have not yet reached their nineteenth birthday. All these shall appear in person at their nearest public schoolhouse to enroll and be credited with compliance with the military law of the state.

## COMMENTS OF THE PRESS

In the Dog Days.

The fact that an unlicensed man bit a dog up in Kensington the other day directs attention anew to a danger that cannot be too frequently pointed out, especially to the parents of youthful canines. Of course, not every vicious man is mad, and such incidents may be due to the irritation produced by this sultry August weather; but it is well to take every precaution, and when a dog is bitten under such circumstances it should promptly have the wound cauterized. The news report does not state whether the man who bit the dog was shot by the police, but if not he should be placed under observation and segregated from his kind. It is obvious that in this kind of weather men should not be allowed to run at large, especially in neighborhoods where young dogs are playing in the streets, without muzzle. — [Philadelphia Record.]

## The Needs of Mexico.

Mexico needs nothing so much as time and opportunity to recover from its long succession of revolutionary and civil disturbances. Without a stable government, secure in the popular favor, it cannot hope to make progress with the orderly administration of the laws and command the respect of other nations whose co-operation is necessary to its well-being. Obregon himself is the creature of the restless conditions that have prevailed since the overthrow of Diaz, but he exhibits in his conduct more of the sobriety of character that goes to the making of a temperate and intelligent ruler than any of the generals who have come to the fore in Mexico in the last 12 years. It will be Mexico's good fortune if foreign hopes of him are not deceived. — [New York World.]

## Inviting Danger.

It is argued that the victorious Poles must not sit on the fence and wait for the disease to come back and endanger them? A fine position! — [Toledo Blade.]

## The Deadliest Weapon.

The way the Bolsheviks have been routed leads us to believe the Poles turned the water on them. That's the only thing that could make them run like that. — [Cincinnati Enquirer.]

## Flying Over the Crowd.

In the early days of aviation, flying over cities or assemblies of people was forbidden. The war made it necessary; it may be necessary still at times in war training. Civil aviation never demands it. The landing-places of the Air Mail service are always in sparsely inhabited zones. If there is necessity for city flights, aviators should at least refrain from boyish pranks and keep at sufficient height to make a safe landing in case of engine trouble. Failure to follow this rule unnecessarily discredits aviation when it does not end in the tragedy it always invites. — [New York World.]

## Aye, There's the Rub.

As a general thing, a woman knows her children would have a bad time without her, but she's not so sure about her husband. — [Dallas News.]

## Probably.

Probably, even if the Garden of Eden had a no-parking sign by the apple tree the serpent would have been there just the same. — [Syracuse Herald.]

## JUDGE TIES NUPITAL KNOT.

Law Books and Manifests Furnish Setting for Wedding Yesternoon.

The law office of City Judge Frank C. Huntington was the rather unusual scene of a wedding yesterday when Charles Francis Tidd of this city and Miss Blanche Birnbaum of Toronto, Canada, were made man and wife. The ceremony was performed at "high noon" in the front office, which was beautifully decorated for the occasion with law books, manifests, typewriters, etc. Clarence A. Danne and Julian B. Jackson, assistants at the law offices, were combined best men, ushers, flower bearers, etc. Although it was the judges first experience at tying a nuptial knot, he did very well, "he said, and there was nary a hitch. The groom only recently came to Oneonta and took employment in the D. & H. shops as a steam fitter's helper. He is a native of Gloucester, N. J. His blushing 20-year-old bride arrived in Oneonta only a few hours before the ceremony from Toronto and as soon as a license could be procured they were married by "the nearest parson," who in this case happened to be the judge. Both are young people who make a good appearance and friends the young man has made since he came here will be glad to learn that the couple plan to make Oneonta their home in the future.

## DUKE OF DEVONSHIRE KEEPS HIS DATE

Canada is crowing over the exploits of a new Canadian Pacific Ocean Services' liner, the Empress of France.

The Duke of Devonshire promised Sir Auckland Geddes, by cable, that he would preside at a dinner given to the new British Ambassador at Washington by the Canadian Club at the Prince's Restaurant, Piccadilly, London, England. The specific purpose of the Duke's visit, however, was to attend the wedding of his daughter, Lady Dorothy Cavendish, to Captain Harold MacMillan.

He was to sail on the Empress of France. Things looked bad at the start when the boat's schedule read "Sailing from St. John, N. B., March 15th." The 15 was a hoodoo right enough because a terrible gale set in with such fury that it was deemed advisable to delay the sailing twenty-four hours.

Capt. Cook, the commander, consulted by the Duke, gave a solemn promise, "Your Excellency will be in Liverpool at the appointed time on the stroke of the clock—if the ship's engines can manage it." Steam gauges were never so popular. Stokers were heroes. A spirit of adventure lightened the nerves of all on board. The Duke kept his date.

Just as an after-thought, the Hoodoo of the 15 tried to break the Duke's promise by hanging a dense fog over the Mersey, but by cautious navigation Capt. Cook brought his great vessel to anchor opposite the Prince's Landing Stage at Liverpool at six o'clock on the morning of March 22nd, the date and hour scheduled for its arrival.

## Tea-time is Sandwich time

## JELLY SANDWICHES

For the sweet sandwich — which serves nicely for a dessert — use marmalade, jam, jelly or any conserve not too liquid. Here's a suggestion:

Spread buttered slices with currant jelly and sprinkle with chopped English walnut meats. Trim crusts and cut slices in half, diagonally.

Tea and light sandwiches make a pleasant bracer to tide you over until the evening meal is served.

Chat goes so well over the tea-cups that everywhere tea-time has come to be the most popular hour for informal, friendly hospitality.

Make your tea sandwiches dainty both in size and kind, without crusts. Fillings should be smooth and delicate, preferably of lettuce and mayonnaise, water-cress, chopped olives, minced chicken or turkey. Here is something new that will appeal.

## Savory Sandwiches

Blanch almonds, and brown one-half cup in cooking oil placed in a skillet. Chop fine. Season well with salt and paprika and add two tablespoons of chopped pickles and one tablespoon chopped chutney. Cream one large cream cheese and spread on thin slices of bread. Sprinkle with the almond mixture and press top slice of bread into place. Cut in triangle shapes.

### ON TRACK OF SANFORD CAR

AUTO JUST LOCATED IN VERMONT BELIEVED TO BE PROPERTY OF ONEONTA.

Identification Not Yet Finally Established—Two Young Men Held by North River Sheriff. Reported to Have Been Seen in Oneonta With Car Night It Was Stolen.

According to information received by the local police department after an extended search had been conducted, a Dodge car that is now held at North River Junction, Vt., is believed to be the auto that was stolen from the barn of Charles Sanford, of South Side, Oneonta, sometime during the night of August 25. Ownership has not yet been definitely established, but all indications point to the car being Mr. Sanford's property. Two young men arrested by the North River sheriff are believed to have stolen the car.

Sanford's garage, cards describing the machine were sent broadcast and one of them came into the hands of the Vermont sheriff, who had arrested two men on a charge of larceny. After questioning the men, the sheriff learned that they had a Dodge car in their possession and it so much resembled the description of the Sanford machine that the only apparent discrepancy is that the sheriff said that the car was a 1917 model, while Mr. Sanford's was of 1915 design. Chief Horton has communicated with the sheriff in an effort to definitely establish whether the car is the Sanford machine, and is meanwhile awaiting a reply. If the car proves to be the right one, Mr. Sanford undoubtedly will go north to bring it back.

The men held by the Vermont authorities are said to answer the description of two young men of this vicinity who were seen driving a Dodge car about the city the night Mr. Sanford's barn was entered. If it is established that they made away with the Sanford machine, they will be brought back to Oneonta to face a grand larceny charge. The Vermont sheriff, however, has the priority as regards punishment, for the men he arrested are wanted in that state for a similar offense.

### Not Members of Oneonta Gang.

The two men held in Vermont are not members of the gang which has been operating in Oneonta for the past year and which was recently jailed. The cars that this gang are said to have stolen and later sold now number 18, the local police having succeeded in locating several more since the men were first arrested. One of the latest recoveries was a car that William McKinney and Earl Thayer are alleged to have stolen from E. F. Roche of Whitehall. This car had been taken to Plattsburgh and there sold, the Oneonta police locating it in a garage there, and notifying the owner.

Attorney Henry D. McLaury of this city is representing District Attorney Adrian A. Pierson, of Otego county, in the examination of the five men arrested for complicity in the recent thefts.

### Mothers' Meeting at Baptist Church.

The next meeting will be held on October 6th, at the church parlors. This will be a Father and Mother meeting.

### ONEONTA KEEN FOR PROJECT.

25 Per Cent Above Quota in County Improvement Association.

Figures at hand show that the city of Oneonta is alive to the work of the Otego County Improvement association, and is ready to do her share and more of it. The quota of Oneonta was fixed at 560 members, but already she boasts of 686 memberships, which have been taken by 188 persons, and which put the city 25 per cent above what was originally expected of her.

Other villages and towns which have also gone beyond the quota are Decatur, Edmeston, Hartwick, Otego (including Cooperstown), Plainfield and Roseboom. These are encouraging figures and there is reason to believe that every other community will also come up at least to the amount originally asked.

### EZRA GRAVES IS CLAIMED.

Well-Known, Practically Life-Long Oneonta, Dies After Long Illness.

At the family home, 40 Center street, yesterday noon, occurred the death of Ezra Graves, practically a life-long resident of Oneonta and one of its best known older citizens. He had been in failing health for a year past and for half of that period had been confined to the house. Chronic bronchitis was assigned as the cause of his death.

Mr. Graves was born at Laurens on November 6, 1853, a son of the late Nathan and Catherine (Brewer) Graves, but when only four years old he came with his parents to Oneonta, which had ever since been his home. On June 16, 1874, he married Martha Schermerhorn, also of Oneonta, and soon afterward they took up their residence on Center street, where they had ever since been "at home." Mr. Graves was among the best known older residents of the city and had a host of friends who admired him as a man of strict integrity and one always willing to lend a helping hand. During his active years he was employed in several Oneonta business places, including Doyle & Smith, cigar makers, where he worked for nine years, and the Stevens Hardware company, where he was last employed, being forced to retire from active work about four years ago, when his health became poor.

Besides his bereaved widow, Mr. Graves is survived by three children, Mrs. Marion Graves Lee of Binghamton and A. Miles and Verner E. Graves of this city; by one brother, W. W. Graves of Chicago; and one sister, Mrs. J. E. VanDusen of Torrington, Conn. There are three grandchildren, Jean, Billy and Betty Graves, Miles Graves' children. The sympathy of the many friends of the family will be extended to them in their hour of sadness.

Funeral services will be held at the late home Saturday afternoon at 3 o'clock and will be private. Rev. Dr. B. M. Johns, pastor of the First Methodist church, will officiate, and burial will be at the Plains cemetery.

### Walton Woman Abandons Baby Boy.

Mrs. Ethel Fikary of Walton was apprehended last week and is in the custody of Humane Officer Samuel J. Koerbel of Binghamton, charged with abandoning her eight months' old baby, who was found deserted in a room in a Binghamton hotel. The woman will be turned over to Charles H. Phelps, humane officer of Delaware county, and placed on probation for a year, it is said by officials.

The baby boy, who, since it was found in the hotel, has been in the Community Service home at Binghamton, will remain in the custody of Mr. Koerbel and it is probable that a home will be found for it in some family in Binghamton. Many unfortunate elements, it is said, enter into the desertion of the child, and a simple abandonment charge will be made against the woman.

### MRS. ORRA H. ROBINSON DEAD.

Succumbs to Effects of Attack of Influenza Suffered Two Years Ago.

Orra H. Holliday, widow of Irving Robinson, died at the home of E. J. Wiza, 20 Spruce street, Tuesday morning at 6 o'clock following an attack of influenza which she suffered about two years ago and from which she never fully recovered.

Six weeks after her marriage to Mr. Robinson, they were both stricken with the disease and his death followed soon after. Her condition improving somewhat, she went south and her health improved sufficiently so that she accepted a position as teacher in the school at Richfield Springs. Last April, mastoiditis developed and she underwent an operation but did not fully recover. She came to Oneonta early in August and on Saturday a second operation to remove a portion of diseased bone was performed. Soon after, her condition became serious and she passed away Tuesday morning as stated.

Mrs. Robinson was born in the town of Middlefield on February 27, 1890, the daughter of Mr. and Mrs. John Holliday, who are now residents of Cooperstown. She was graduated from the training class at the Schenectady high school and taught at Morrisville and other places before her marriage to Mr. Robinson.

The funeral services will be held from the home of her parents in Cooperstown on Thursday at 1 o'clock. Rev. B. W. Dix, pastor of the Methodist Episcopal church of that village, of which she was a devoted member, officiating. Interment will be at Richfield Springs by the side of her late husband.

Surviving her are the parents and one brother, George Holliday, also of Cooperstown. She was a favorite niece of Mrs. D. A. Diefendorf of this city, and a loving young woman much respected by all who knew her.

Mr. Bell was 62 years of age and had been a teacher and superintendent of schools in this state and at Racine, Wis. For the past few years, however, he had resided in Syracuse and had been in the insurance business. He is survived by his wife, formerly Miss Carrie Alger, who is a sister of Rev. W. H. ### Were They "Rattlers"?

Hartford Keith, while mowing recently by hand, encountered a nest of snakes that seemed inclined to show fight. The reptiles, four in number, circled around him and threatened an attack. He quickly dispatched them in killing the other two. The largest measured four feet in length and had three buttons on its tail, which indicates that they may have been "rattlers."

Safford dressed the injured foot.

## HORSE RACES HOLD SWAY

THREE HOT EVENTS AT DELHI YESTERDAY AND FOUR MORE TODAY.

Large Crowd on Grounds Yesterday. Outlook to Favorable Weather — Race Between Buick and Simplex Another Feature Today, the Closing Day.

Delhi, Sept. 8. — Clear skies in the forenoon and bright September sun in the afternoon brought out a large crowd to the Delhi fair today, the grounds being well filled and everything going along well. The attractions this year are numerous and despite the poor start, owing to the weather, this year's exhibition promises to exceed all others.

The horse races held the center of interest today, three different races being run off on a good track during the afternoon. Wheeler's Bob Tom won the 2:20 pace after a hard race. Tichnor's Cussawaga, who carried off the 2:14 in three straight heats, and Gray's Buster Boy won the 2:30 pace and 2:32 trot. The results follow:

With fine weather Thursday, the closing day of the fair, there will undoubtedly be a great crowd on the grounds. There will be four more races, the 2:18, 2:24 and 2:30 classes and the much-heralded free-for-all. Another feature will be an auto race between Ray Colburn of Franklin, driving a Buick six roadster, and George Cannon, driving a Simplex. The Buick will be given a half-mile handicap and then the race will be on, and indications are that it will be "some race." The last day of the fair promises to exceed all previous days and a big time is looked for.
